- Preschool (Age 4)
- Kindergarten
- Grade 1
- Grade 2

Add students

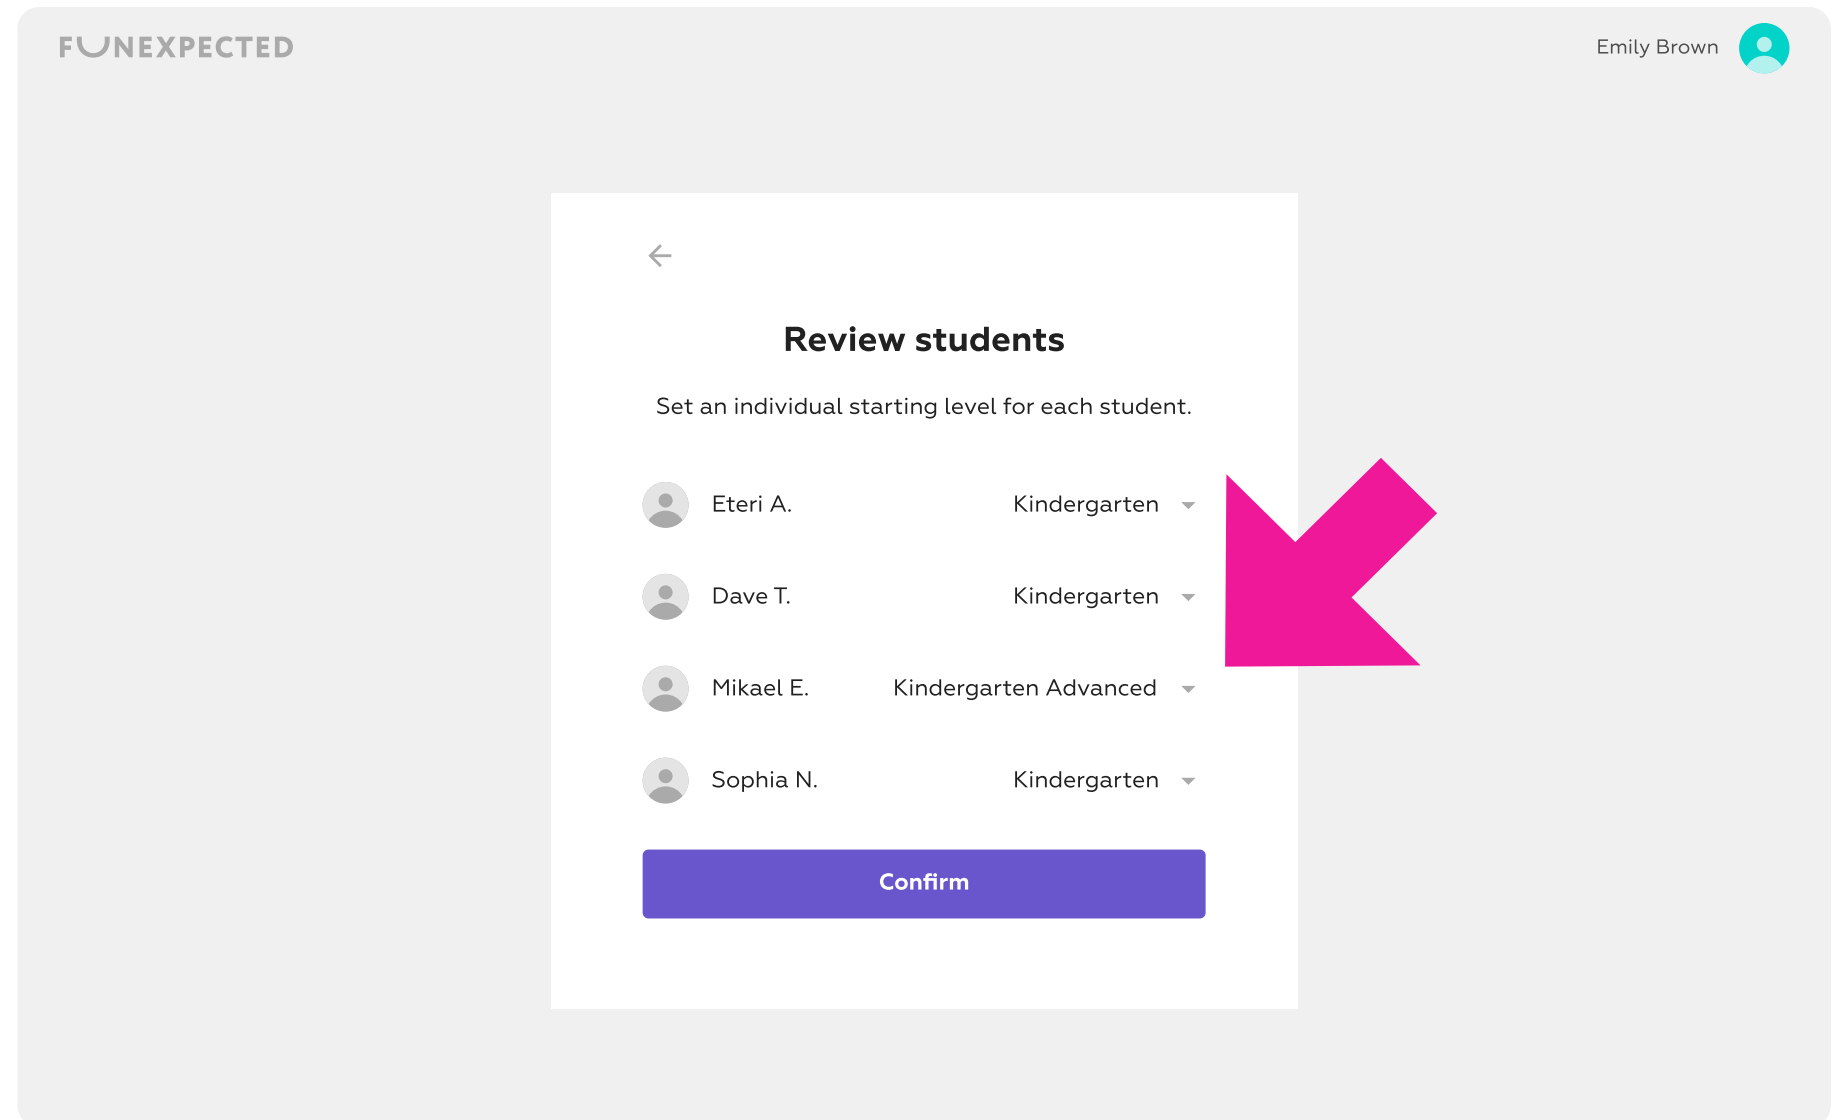

- To add a bulk of students at once, you can download the CSV template, fill it in, and upload it back.
- To add students manually, enter one name per line; last name initials are optional.
- When ready, tap “Submit”. Remember you can always edit your class later.

The screenshot shows the 'FUNEXPECTED' app interface. At the top left is the logo 'FUNEXPECTED'. At the top right is the user name 'Emily Brown' next to a profile icon. The main content area is a white card titled 'Add students' with a back arrow in the top left corner. Below the title is the instruction 'Enter student names, one name per line.' A text input field contains the following names: Eteri A., Dave T., Mikael E., and Sophia N. Below the input field is a blue 'Submit' button. At the bottom of the card are two links: 'Upload students (CSV)' with an upload icon and 'Download template'.

Define each student's starting level

- If you have students of different skill levels in your class, you can assign the learning program for them individually. You can always change these settings later.
- Tap "Confirm" when ready. You'll proceed to the "Classes" page.

Creating a new class from the “Classes” page

- On the “Classes” page click “Create class” button.
- In the pop-up window enter the class name and grade.
