

FUNEXPECTED

Using the App in the Classroom

Prepare devices for the lesson in a few simple steps.

Download the app

- Download Funexpected Math on all student devices. Scan the QR code or search "Funexpected Math" in the App Store or Google Play.

Funexpected Math for Kids

Learn to count in fun games

[Google Play](#)

Prepare devices for the first lesson

- Open the class page in your educator account.
- Scan each student's login QR code with their device using the camera.
- Or download a PDF with all QR codes and print it for easy distribution.

Student login with class code

- There is an alternative way to log in as a student on a device by using a class code.
- First, tap “I Have an Account”, then tap “Classroom Login” and select “Log in as a student.”
- On the next screen, enter the class code. The class code can be found on the class page in the teacher portal.
- Select a student from the class page and tap “Log In.”

Educator account features

- In the app, all tasks are available to educators straight away — no need to follow the course order.
- To log in to the app as an educator, use your own QR code – find it next to your name on the “Classes” page.

Starting the first lesson

- Student opens the app.
- Picks a character.
- Starts learning — the app automatically launches the first Star Mission.
